Dear Honorable Judge Christopher Lopez:

All documentation for what I will share has been sitting in the hands of Napoli Shkolnik PLLC for years under their Case No. TAL048961 for Ovarian Cancer, also a part of Case No. 24-90505, document 1424, filed in TXSB on 3/31/25 by Red River Talc LLC.

I would like to understand why Johnson and Johnson has not settled my ovarian cancer case with me, which you ordered dismissed along with an adversary Case No. 24-03194.

My case began in 2015 after an ovarian cancer surgery removed a tumor over 10 pounds, which was cancerous. A biopsy of the tumor revealed that talcum powder was in the fiber of the tumor. I had used Johnson and Johnson talcum powder since early 20's and I was 69 at time of surgery; so it had been many years.

I had a reaction to the first Chemo; so was given another one to the tune of \$11,000 for each treatment but was still sick a week at a time.

*OVER*

Approximately a year later ~~Case 21-95505~~ ~~Document 1458~~ ~~filed in the CFB on 02/25/2025~~ my body organs. I had two heart surgeries in 2016 and had to have a pacemaker put in during January of 2022 because the atrial fibrillation was keeping me sick a good portion of my life.

I, also, developed a hernia along side of the incision that was quite large and after trying to put it off, I had to have emergency surgery on that in November of 2021 and more surgery in 2024 all because of the tumor.

The result of all this is that I went from working full-time to part-time and then not at all; so it has caused a tremendous financial hardship and a definite decline in my health and strength.

I do not know why Johnson and Johnson would not want to settle with me because it was their product that created all these health issues and financial hardship. I don't feel like you care either Judge because I do not believe you thoroughly reviewed each case included in the lawsuit. Then how can you Judge Lopez in good faith dismiss this case?

Respectfully,

Connie L Peterson
